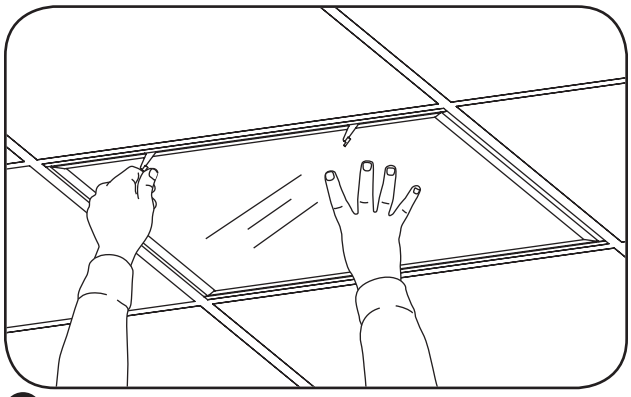
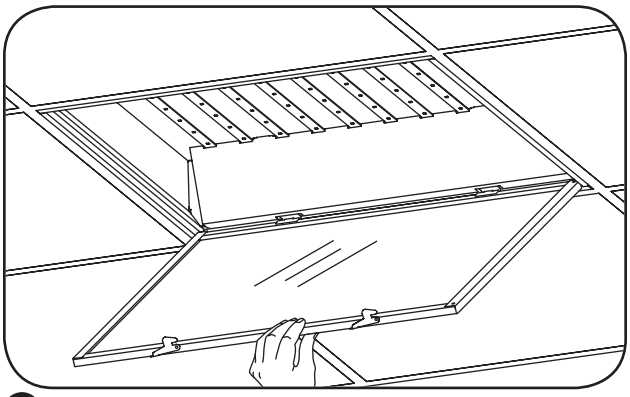
Diffuser Replacement Steps

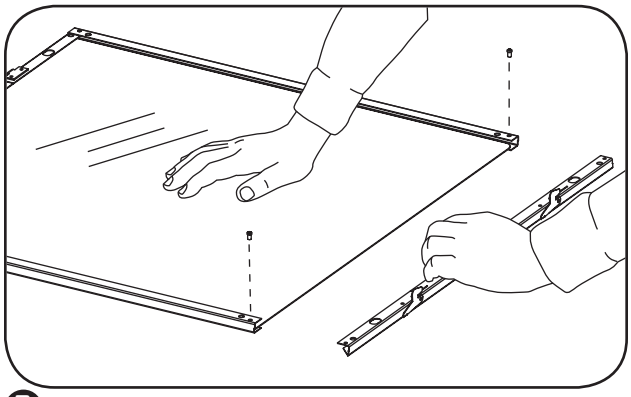
NOTE: The following steps depict the 22 Series luminaire. However, the procedure is the same for the 14 and 24 Series fixtures.



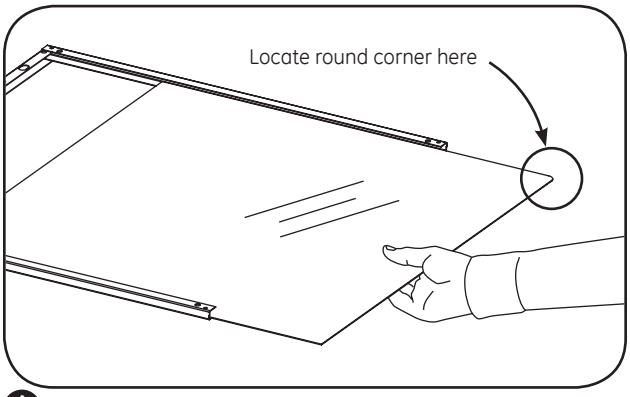
1 Rotate latches to unlock the front bezel.



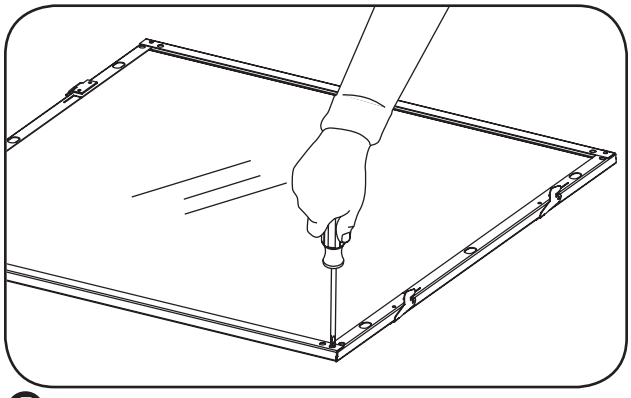
2 Swing down panel and lift off front bezel with diffuser.



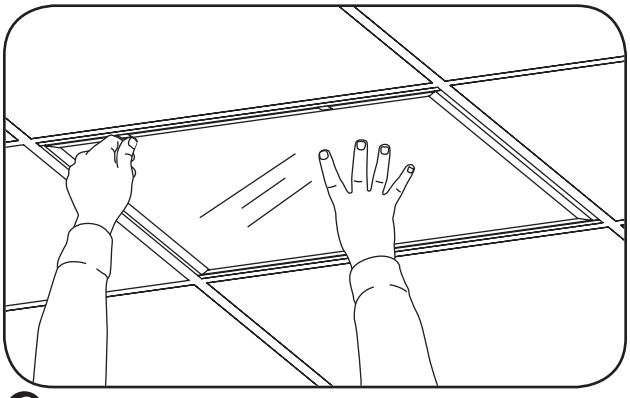
3 Place front bezel with diffuser on table. Unfasten the two rail screws on the end rail with latches, then remove this end rail.



4 Remove the old diffuser by sliding it toward the side without end rail. Insert new diffuser, keeping the round corner of diffuser on bottom right.



5 Reattach end rail with screws.



6 Hang panel on its hinges and swing up into place. Rotate latches on front bezel to fasten it.

Note: Front side of diffuser should face outward.
